You can be confident that you and your clients will receive the best and safest service available.

Good, well-maintained equipment, comfortable and reliable boats,

adherence to all safety procedures and friendly and professional staff assure your clients comfort and safety all the way.

The Zanzibar Dive Centre, One Ocean Ltd, is Zanzibar's first Five Star Dive Centre. We offer the most professional and organized operation on the island. You can be confident that you and your clients will receive the best and safest service available. Good, well-maintained equipment, comfortable and reliable boats, adherence to all safety procedures and friendly and professional staff assure your clients comfort and safety all the way.

With five operations on the island, The Zanzibar Dive Centre, One Ocean can meet all your diving requirements from the north, east, south and west coast of Zanzibar. One Ocean now has the island covered.

Most of the dives are double dives with a traditional Zanzibar lunch or light refreshments included in the cost. We endeavor to show our divers a variety of dive sites and to take them to the best sites available. The deeper water of the east coast is host to whale sharks (March, August & Sept), sting rays and dolphins. The variety of coral is excellent and reef fish abound. Our dive instructors and dive masters aim, not to simply lead a dive, but to reveal the mysteries of the reef to our divers.

The original operation based in Stone Town offers dives on the stunning coral reefs and wrecks of the west coast. It is served by a traditional Arab dhow M.V. Ana as well as Winnie; a powerful, custom-built dive boat allowing us to get to the further reefs easily and safely. Manta and Greta, again custom built for diving, are based at Bluebay Beach Resort & Ocean Paradise for quick and easy access to some of the best dive sites Zanzibar has to offer. Our Matemwe Beach Operation is served by M.V. Henya & M.V. Jessica - purpose built dhows. Our fifth dive centre opened early 2007 and is based from a new luxury beach lodge; Ungunja Resort in Kizimkazi, along the southern part of the island. The south is famous for dolphin sightings and some of the best diving in Zanzibar. For those who wish to learn to dive the calm, clear waters of Zanzibar are an ideal learning ground. Our courses are conducted in accordance to the PADI regulations and standards. We choose the dive sites for our open water students very carefully to ensure that conditions are suitable for novice divers.

A suggestion to enhance a holiday in Zanzibar: In order to complete your Open Water Course in Zanzibar it is not necessary to spend 2 days of valuable holiday time in a classroom! It is possible to complete the academic and confined water (swimming pool sessions) modules of a PADI Open Water Course over a weekend at home, Then the exciting part, the Open Water (diving in the ocean) modules can be completed in the clear, warm water of Zanzibar. This is known as a Referral Course and can be done through any accredited PADI dive centre. Please ensure that all class records and files are brought with to Zanzibar.

DIVE SITES FROM MATEMWE BEACH VILLAGE,

MNEMBA ATOLL

KICHWANI :

Deep, clear, drift dive from 20m to 40m depending on the divers experience.

Many coral species; Mushroom, Honeycombe, Brain and Staghorn Coral to name just a few.

Below 30m a vertical wall of reef fish, 1.119. Trumpetfish and large Napoleon Wrasse.

The lucky see Reef sharks, Turtles and Dolphins.

WATTABOMI :

Excellent site for snorkellers and novice divers.

Schools of small reef fish, Regal Angelfish, many Bluestreak Cleaner Wrasse, Semicircle Angelfish, Moorish Idol, eel's, Blue Spotted Rays, Lionfish, and many more.

Take your time looking for Flounders and Soles.

These fish lie on their side buried in the sand, and are very well camouflaged.

For most of the year you will be treated to the beautifully-patterned Striped Dolphin, but the Bottlenosed, Spinner and common Dolphins also occur in the clear waters around Mnemba.

This is an excellent photographic opportunity both above and below the water

AQUARIUM :

Depth to 20m. There is usually a slight current at this site.

Patches of sandy bottom occur quite close to the reef with Surgeonfishes, Moorish Idols, parrotfish, Groupers, large Hawksbill and Green Turtles along with White tip reef shark's.

WEST GARDENS :

Depth 12 mtr's. Good spot for snorkellers and novice diver's

OTHER DIVESITES :

Groupers Rock, Sandbank, Small Wall, Big Wall, Westbank & Turtle Reef

Please come to "One Ocean Matemwe" dive cent You can find us at t" next to the pool.
